

## 53-916X URSA STRAPS MINI FOAMIES MICROPHONE MOUNTS

53-9166 URSA STRAPS MINI FOAMIES MICROPHONE MOUNTS Soft foam, 22 x 14 x 7mm, black (pack of 12)  
53-9167 URSA STRAPS MINI FOAMIES MICROPHONE MOUNTS Soft foam, 22 x 14 x 7mm, white (pack of 12)

The URSA Mini Foamies soft foam mounts with flat sides can be stuck directly to skin or clothing/costume providing a soft, quiet buffer reducing clothing friction noise. Made from high quality sponge the Mini Foamies measure 22mm in length, 14mm wide and 7mm thickness and can be easily cut to accommodate a particular scenario. The 1.5mm diameter hole can stretch up 4mm designed specifically for small diameter lavalier microphones such as the DPA 6060, Sennheiser MKE1, Countryman B6 etc. Mini Foamies can also be installed onto the tip of an antennae of your transmitter/receiver. This can help reduce the RF loss sometimes experienced when the antennae is pressed against the body.

Available in Black or White the Mini Foamies are supplied in packs of 12.

Foamies accommodates the following popular lavalier microphones as well as others of a similar size:

Sanken	COS11
DPA	6060/6061
Countryman	B6
Sennheiser	MKE1
